DESCRIPTION

Practical and compact, the Keypop keyring is a metal bottle opener with a circular bamboo insert that gives a natural touch. Measuring 9 x 3.3 cm, it fits neatly on a keyring and allows one-handed opening of bottles. The metal construction ensures durability while the bamboo face provides a smooth surface that’s easy to wipe clean.

The simple layout features a classic split ring attached to a flat opener with no unnecessary moving parts, keeping it low-profile in pockets or bags. The round bamboo panel offers a stable area for precise marking and a refined finish suitable for gifting or giveaways.

Customisable from 100 pieces, this personalised bottle opener can be marked by laser engraving, pad printing, digital printing or doming. Well suited to companies, clubs, associations, events and private customers. Our studio can retouch or vectorise your logo to ensure the best imprint quality.
