Reference	2521
Composition	Recycled ABS
Material	Recycled ABS
Average weight	0.106
Dimensions	7 x 7 x 2,6 CM
Country of origin	China
Carton	72 pieces

DESCRIPTION

The Netica 3-in-1 foldable wireless charger is made from recycled ABS with a rubberised finish. It incorporates a 15W magnetic wireless charger for smartphones, a charger for smartwatches (Apple only) and a TWS charger. Its foldable, compact design (7 x 7 x 2.6 cm when folded) provides a stable base and an adjustable stand so devices can be positioned upright or flat; wipe clean with a soft non-abrasive cloth.

Folding into a slim block for easy transport and storage, the charger has flat areas on the top and base suitable for branding. Its small footprint makes it practical for desks, reception counters and event use where a neat, space-saving charger is required.

Customisation available by doming or laser engraving for a precise, long-lasting mark. Perfect for businesses, clubs, associations and events looking to offer a personalised wireless charger as a corporate gift, welcome pack item or retail merchandise. Minimum order: 36 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; our graphic studio can vectorise or retouch your logo.
