Average weight	0.055
Dimensions	8,5 x 2,5CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

The Multichillo pocket knife is made from recycled aluminium and offers a compact multi-tool solution, measuring 8.5 x 2.5 cm. It features five functions: a large blade, bottle opener, screwdriver, corkscrew and can opener, all packaged in a slim, easy-to-carry body. The shape and rounded edges provide a secure grip for everyday tasks.

The aluminium handle has a smooth, slightly curved finish that protects the internal mechanisms and makes it simple to deploy each tool. Available in several colours — for example black, blue and silver — it works well as a practical giveaway or a useful addition to a corporate kit, event pack or club merchandise.

Customisation is available by laser engraving or pad printing. Note that this promotional item has a minimum order quantity of 100 pieces (colours and sizes combined). Suitable for businesses, associations, sports clubs, events and individuals looking for a personalised multitool; our studio can also retouch or vectorise your logo before production.
