DESCRIPTION

The Muglet bamboo mug warmer is a compact desk accessory that keeps drinks hot up to a maximum of 45°C. Made from bamboo, it offers a warm tactile finish and a slim round profile (10.4 x 10.4 x 1.8 cm) that fits neatly on an office desk. It is powered via the supplied USB cable for easy connection to a computer or adapter.

The visible design features a flat central plate suitable for most mugs, surrounded by a low wooden rim. Clean with a soft damp cloth and avoid prolonged immersion to protect the bamboo and internal electronics. Its low height makes it easy to store when not in use.

Customise this personalised desk accessory with laser engraving or pad printing to add your logo or message. Recommended for companies, associations, clubs and event organisers looking for a practical promotional gift. Minimum order: 30 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; graphic studio available to prepare your artwork.
