Average weight	0.09
Dimensions	3,8 x 5,5 x 6CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Ringsmart smart tracker is designed for cyclists who want to locate their bike through Apple® Find My (compatible with iOS only). Made from ABS and measuring 3.8 x 5.5 x 6 cm, it is compact and powered by a CR2032 button cell. Its bell-shaped housing and thumb lever allow easy ringing directly from the handlebar without interfering with control.

The picture shows an adjustable clamp and an ergonomic release lever that fit standard handlebar diameters. The matte-finish housing keeps bulk to a minimum, making it suitable for urban bikes and touring applications where low visual impact and simple operation matter.

Customisation is available by laser engraving or pad printing, making it suitable for companies, sports clubs, associations, events and client gifts. Minimum order: 50 pieces (colours and sizes combined). A practical option as a personalised smart tracker to support your promotional needs.
