DESCRIPTION

The Cocharge cable is a phone accessory made from RPET (recycled PET) for 60W USB-C to USB-C charging and data transfer. At 120CM long it's practical for office, travel or event use. The braided-looking finish seen in the image gives the cable a sturdy yet flexible feel while remaining easy to handle.

The cable includes a cord holder and keyring plus a small clip to attach it to a bag or badge. Metal-effect end fittings at the attachment point add durability and make storage straightforward. Available in several colours — for example Black, White and Navy — and simple to wipe clean with a damp cloth.

Customisation options include digital printing, doming, laser engraving and pad printing, making this personalised phone accessory suitable for companies, clubs, associations and promotional events. Minimum order: 50 pieces (colours combined); free quote within 24 hours on weekdays and a graphics studio is available to vectorise or refine your logo.
