Country of origin	China
Carton	100 pieces

DESCRIPTION

The Carpa wireless car charger is a compact, PVC-made accessory available in several colours. Its slim rectangular dimensions (15 x 7 x 0.5 cm) make it easy to place on a dashboard or any flat surface. Designed to wirelessly charge smartphones, it includes an integrated USB A cable of 120 cm for power. Please note a minimum order quantity of 50 pieces applies.

The charging surface features PVC anti-slip studs to reduce movement while driving, and the edges can be trimmed to better fit particular devices or holders. Its low-profile design and understated finish make it practical for daily use; upkeep is limited to wiping with a damp cloth or removing dust.

Customize this personalised wireless charger using laser engraving or pad printing to apply your logo. Well suited to businesses, car dealerships, clubs and promotional events, it provides a useful branded gift for clients and staff. Free quote within 24 hours on weekdays; graphic studio available to refine or vectorise your artwork.
