Country of origin	China
Carton	40 pieces

DESCRIPTION

The Karaseta compact speaker is a portable ABS device designed for everyday use. It delivers 5W output and runs on a 500 mAh Li-ION rechargeable battery for about 4 hours of playtime. Connectivity includes a micro-SD slot and AUX/USB port, and a PU carry handle makes it easy to transport. Dimensions: 8 x 6.5 x 7.5 cm.

The visible design features control buttons on the top and a protective front grille; the ABS housing provides durable, low-maintenance performance—clean with a dry or lightly damp cloth as needed. Its compact shape suits both indoor and outdoor use for events or personal listening.

These personalised speaker units are available from a minimum order of 20 pieces. Customisation techniques available: DTF printing, doming, pad printing, embossing, laser engraving and screen printing on objects. Recommended for companies, events, clubs and associations, or for group orders by private customers.
