| **Carton** | 200 pieces |

## DESCRIPTION

The Keysto personalised phone accessory combines a Type-C to Type-C 60 W charging and data cable with a keyring in a compact 16 cm format. The aluminium housing, woven loop and magnetic closure protect the connector when not in use, while the LED display shows charging power for clear on-the-go monitoring. It is suitable for corporate giveaways, events and staff use.

The functional design features a metal key ring and a secure textile loop without unnecessary elements. The aluminium finish and visible LED simplify everyday handling and quick checks during charging. For care, wipe with a soft cloth and avoid immersion or harsh chemicals.

Customisation is available by laser engraving or pad printing (tampography). Suited to companies, clubs, associations and promotional projects. Minimum order: 100 pieces (colours and sizes combined). Our studio can retouch or vectorise your logo for production.
