## DESCRIPTION

The Listoo wireless speaker is a compact, round unit (10.8 x 9.2 cm) with an ABS shell and RPET fabric covering, finished with bamboo details on the top panel. It includes a 1200 mAh Li-ION rechargeable battery giving around five hours playback, 3W output and connections via an SD card slot plus included AUX/USB cable. Its size and portability make it suitable for offices, events and promotional use.

Its spherical shape with a flat top provides stable placement on desks or display tables. The woven RPET fabric offers a textured, more eco-aware finish while ABS delivers durable handling. Controls and ports are conveniently positioned for everyday use; maintenance is limited to dusting the fabric and wiping the plastic components with a damp cloth.

This personalised speaker can be branded by DTF printing (impression numérique), doming, laser engraving, pad printing (tampography) or screen printing on objects. Ideal for companies, clubs, associations and individuals for merchandising, corporate gifts and events. Minimum order: 10 pieces (colours and sizes combined); lower quantities may be possible for an extra fee.
