Country of origin	China
Carton	50 pieces

DESCRIPTION

The Brenna Tube sports bag is made from RPET with a PVC coating, offering a compact cylindrical shape (15 x 34 cm) and approximately 6 L capacity—suitable for a change of clothes and a few essentials. The coated RPET gives the bag water-resistant properties and a wipe-clean surface. The top zip closure, detachable adjustable straps and tube silhouette provide practical carrying options and easy access to contents.

In everyday use the bag is low-profile yet durable: reinforced seams at the ends, a discrete zipper and a simple interior make it easy to store and retrieve items. Its compact dimensions make it a good choice for gym sessions, short outdoor activities or as a handy accessory bag for events. The construction is straightforward and easy to maintain.

Customisation available for a personalised sports bag using screen printing on object, multicolour transfer, DTF printing or flex. Ideal for companies, sports clubs, associations, schools and events. Minimum order: 25 pieces (colours and sizes combined). Free quotes within 24 hours on weekdays; graphic studio service available to vectorise or refine your logo.
