Reference	2777
Composition	Aluminium
Material	Aluminium
Average weight	0.15
Dimensions	10 x 5.9 x 2.3CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

Compact aluminium powerbank, model Mukava, designed to warm hands while charging devices. This unit integrates a 5000 mAh battery with double-sided heating and three temperature settings (45°C, 50°C, 55°C). Operation is via a discreet push button and status LEDs; the smooth aluminium shell and supplied wrist strap make it easy to carry. Connections include Type-C input/output, USB-A output and DC 5V/2A, and a charging cable is included. Wipe clean with a soft cloth.

The oval profile and rigid construction protect the electronics while keeping controls accessible. With compact dimensions (10 x 5.9 x 2.3 cm) it fits in a pocket or bag, making it practical for travel, outdoor events and promotional use where portable heating and power are useful.

Customisable by laser engraving and pad printing, this personalised powerbank suits companies, clubs, associations and event giveaways. Minimum order: 25 pieces (colours and sizes combined) — lower quantities possible with additional fees. Free quote within 24 hours on weekdays; our graphic studio can retouch or vectorise your logo.
