## DESCRIPTION

The Study zipped pencil case is a lightweight RPET accessory designed for school or office use. Its slim, rectangular shape and compact dimensions (20x10cm) make it ideal for storing pens, pencils and small stationery items neatly. The recycled polyester construction provides good structure and easy care — spot cleaning is recommended. It suits daily use by students, staff or teams requiring a practical organiser.

The case features a longitudinal zip with a fabric pull tab for smooth opening. Discreet stitching and a flat profile allow it to sit easily inside a bag or briefcase pocket. Available in several colours, including bordeaux, black and royal blue, it offers a subtle, functional solution to keep writing tools together.

Customisation is available with a minimum order of 125 pieces (colours combined). Possible techniques: screen printing on object, multicolour transfer, DTF printing and flex. Recommended for companies, clubs, associations, schools and events looking for a personalised pencil case for welcome packs, merchandising or promotional giveaways.
