## DESCRIPTION

Compact pocket knife sharpener made of ABS, designed for quick blade maintenance during outdoor activities. At 8.2 x 2.7 x 0.8 cm it slips easily into a tool kit or on a keyring via its attachment hole. The unit incorporates three sharpening elements: a tungsten carbide slot for rapid sharpening and repairing heavily damaged edges, a ceramic slot for finishing and polishing, and a conical diamond rod for serrated blades, providing a practical, all-in-one solution for pocket knives.

The housing features rounded ends and a cut-out that holds the blade steady while sharpening; the ABS construction offers a lightweight yet durable feel. There are no textile attributes for this item. Its compact dimensions make it convenient to carry in picnic or camping kits and to store in small compartments.

Customisable by digital printing, pad printing or doming, this sharpener is suitable for companies, hiking clubs, event organisers and individuals seeking a useful promotional item. Minimum order: 150 pieces (colours and sizes combined). A practical giveaway for outdoor events and branded merchandise as a personalised picnic and camping product.
