Average weight	0.033
Dimensions	9 x 3.1 x 0.2CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

This zinc alloy bottle opener is shaped like a car and measures 9 x 3.1 x 0.2 cm. Designed as a compact kitchen utensil, its slim metal build provides a firm, flat grip while the molded wheel and body details improve handling. It is low maintenance — simply wipe clean — and is suited to everyday use. The item is offered in several colour options across a wide range, for example matte silver.

The thin, flat profile makes it easy to store in a drawer, pouch or promotional pack and convenient for bulk mailings and event distribution. Practical dimensions: 9 x 3.1 x 0.2 cm; material: metal (zinc alloy). Its compact size also keeps storage and logistics straightforward.

This personalised kitchen utensil can be branded by laser engraving or pad printing (tampography), depending on logo placement and scale. Recommended for companies, clubs, associations, events and private customers seeking a promotional gift or commemorative item. Minimum order: 100 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; graphic studio available for artwork processing.
