Country of origin	China
Carton	200 pieces

DESCRIPTION

This kitchen utensil in zinc alloy, model Myhouse, is a house-shaped bottle opener designed for practical, compact use. With dimensions of 7.9 x 5.1 x 0.2 cm and a polished metal finish, it is lightweight yet sturdy. The house silhouette includes raised details that improve grip and give the opener a clear, recognisable shape.

With no moving parts, the opener is reliable and easy to store. Its flat surface makes bottle removal precise and cleaning straightforward — a quick wash with soapy water restores the shine. Available in several colour options, for example matte silver, the metal composition ensures lasting resistance for regular use.

Customisable by laser engraving or pad printing, this personalised bottle opener suits corporate gifts, property-related promotions, clubs, associations and client giveaways. Minimum order: 100 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; graphic studio available to prepare or vectorise your logo.
