DESCRIPTION

The Artiloe mini artificial plant reproduces a Cape aloe and is designed as a low-maintenance decorative object for offices, reception areas or event stands. Made from PP, it sits in a small square pot with softened edges and includes decorative pebbles to create a natural look without care. Measuring 5.7 x 5.7 x 11.2 cm, it fits easily on desks, windowsills or display counters.

The compact square pot provides a stable base and minimal footprint, making it convenient for merchandising and giveaways. The assembled combination of the faux plant and pebbles offers a realistic appearance without watering or upkeep, suitable for long-term interior display.
