Ref. 2863

Reference	2863
Composition	PP
Material	PP
Average weight	0.043
Dimensions	DIA21CM
Country of origin	China
Carton	150 pieces

DESCRIPTION

SEAQUAL® polypropylene frisbee, 21 cm diameter and 1.2 mm thick, designed for outdoor and beach use. Lightweight yet rigid, its streamlined shape gives a comfortable grip and reliable flight, making it suitable for promotions, sporting events and leisure activities. The SEAQUAL® material supports ocean cleanup initiatives and the frisbee is easy to clean with soapy water.

The flying surface features concentric textured rings to improve grip and in-flight stability. A raised rim enhances lift and the flat profile makes storage and transport straightforward. Available in several colours, for example white, turquoise or beige.

This personalised frisbee can be marked by screen printing (object), pad printing or digital printing depending on print size and finish. Ideal for companies, sports clubs, associations, schools and events. Minimum order quantity: 75 pieces (colours and sizes combined); smaller quantities may be possible with additional fees. Our graphic studio can adjust or vectorise your logo for printing.
