Carton	200 pieces

DESCRIPTION

Compact LED reading light in ABS, model Scene, designed as a practical desk accessory with a flexible neck and an integrated clip. The circular control on the body offers three brightness levels. Its small footprint (8.3 x 4.6 x 1.8 cm) and ABS construction make it easy to store in a pouch or drawer; a visible charging port indicates USB charging. Available in several colours, for example black and white.

The product shows a smooth, single-piece finish with a flat base and a focused LED head. Ergonomically it suits occasional use for reading or detailed tasks, with simple one-button control. Care is straightforward — wipe with a microfibre cloth to keep the plastic looking clean.

Customisable by digital printing, doming or pad printing, this personalised desk accessory is suitable for companies, clubs, associations, events and private customers. Minimum order: 100 pieces (colours combined); smaller quantities can be arranged for an additional fee. Free quote within 24 hours on weekdays and our studio can retouch or vectorise your logo.
