Country of origin	China
Carton	2000 pieces

DESCRIPTION

This round reflective keyring Grin is made from PVC and designed for promotional use, ideal for increasing visibility at events or during awareness campaigns. With an approximate 5 cm diameter, a reinforced attachment hole and a metal ball chain, it fastens easily to keys, bags or garments. The reflective PVC improves low-light visibility; the product is available in several colours, for example Fluorescent Yellow and Fluorescent Orange.

The smooth, durable PVC surface is easy to maintain — a wipe with a damp cloth is usually sufficient. Its compact, lightweight construction means it won’t weigh down a key set and stays comfortable for everyday use.

This personalised keyring can be marked using tampography for a clean print on the flat disc. It suits companies, sports clubs, associations and event organisers looking for a visible promotional item. Minimum order: 1000 pieces (colours and sizes combined); lower quantities can be accommodated with additional charges. Free quote within 24 hours on weekdays, with collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
