Reference	2891
Composition	ABS
Material	ABS
Average weight	0.13
Dimensions	26 x 6,5 x 0,86CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

This foldable charging station is designed for everyday corporate and promotional use. It features three hinged ABS modules providing wireless charging surfaces — one 15W pad, one 5W pad for TWS earbuds and a 3W area for an Apple Watch — laid out in a slim, compact format (26 x 6.5 x 0.86 cm when unfolded). The smooth ABS finish is easy to clean and the low-profile construction keeps the unit discreet when folded.

In practical terms the station includes two Type-C and two USB-A ports for wired charging alongside the wireless pads. An integrated cable routing with a Type-C to USB-A connector keeps cables tidy and speeds setup. The folding design lets you use each module as an inclined phone stand or fold it down for compact storage, making it versatile for desks, travel packs or event kits.

Customisation is available by digital printing and pad printing, suitable for businesses, clubs, associations and event giveaways. Note the product is available from a minimum order of 25 pieces (colours and sizes combined). Ideal as a personalised wireless charger to carry your brand at conferences or in client gifts.
