Light-up LED memo board

Ref. 2919

Reference	2919
Composition	Aluminium
Material	Aluminium
Average weight	0.14
Dimensions	16.1 x 10 x 2.6CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

This LED memo board is a compact desk accessory designed to display notes and messages on its acrylic panel. The acrylic board slots into a PS base and is powered by 3 AAA batteries (not included). At 16.1 x 10 x 2.6 cm it is easy to position on a desk, reception counter or event table.

The set includes a white erasable marker for writing directly on the acrylic surface; the changing LED light highlights messages without heating the panel. Its wireless design makes it simple to move around; maintenance is limited to wiping the panel with a soft cloth and replacing batteries when needed.

Personalise with digital printing, pad printing or doming to add your logo or message. Suitable for companies, sports clubs, associations, events and promotional gifts. Note: minimum order is 25 pieces (colours and sizes combined). This product is offered as a personalised desk accessory.
