DESCRIPTION

The Claw It hammer in carbon steel is a compact, multipurpose tool suited for businesses, clubs and promotional events. This unisex model features a polished head with a flat striking face and claw, mounted on a straight metal shaft with a knurled grip for secure handling. Its dimensions (2 x 7.3 x 20.5 cm) make it easy to store and carry in a toolbox or kit bag.

The handle contains a concealed compartment holding four interchangeable screwdriver bits, useful for quick fixes without extra tools. The metallic finish is easy to clean; routine wiping and checking the head's fastening will help maintain performance. The item is offered in several colour options, for example silver.

Personalise these personalised tools and torches using laser engraving or pad printing to apply a clear, durable logo on the head or handle. Minimum order: 30 pieces (colours and sizes combined). Ideal for corporate gifts, trade shows, clubs and associations seeking a practical branded item.
