Ref. 2951

Reference	2951
Composition	Aluminium
Material	Aluminium
Average weight	0.2
Dimensions	57.5 x 5CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

The Nole One is a telescopic walking pole designed for hiking and health walks. Constructed from aluminium for a lightweight yet durable build, it features an EVA grip and wrist strap for a secure, comfortable hold. Adjustable from 105 to 120 cm and collapsing to 57.5 cm for easy transport, it includes a rubber tip and mudguard for improved grip and protection in wet or muddy conditions. The pole is supplied in an RPET drawstring pouch for neat storage after use.

Practical details include a moulded EVA handle, push-button telescopic locking and interchangeable caps as shown in the photo. Aluminium keeps the weight down without compromising strength for regular outdoor use; care is simple — rinse and dry before storing to protect metal parts and the adjustment mechanism.

This personalised walking pole suits companies, sports clubs, associations, events and private customers looking for a useful, durable promotional item. Personalisation options: screen printing on objects, multicolour transfer, DTF printing, flex and laser engraving. Minimum order: 25 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
