## DESCRIPTION

The "Carfresh" car accessory is a compact air freshener holder made from ABS with an aluminium lid and a vent clip. Measuring 5.8 x 4.9 x 2.8 cm, it includes a removable RPET felt insert for liquid fragrance (not included). Its slim, rounded profile sits unobtrusively in the vehicle interior and is easy to handle. Cleaning is straightforward: wipe the exterior with a damp cloth and replace the insert as needed.

The ABS clip secures the unit to the air vent without tools, while the aluminium lid protects the insert and simplifies refilling. The RPET felt insert can be swapped for a different scent or replaced when spent. The product is offered in several colours and is supplied according to the stated minimum order quantity.

Customisation is available by laser engraving or pad printing, ideal for adding a logo or message to the aluminium lid. Suitable for companies, events, clubs, associations and private customers looking for a personalised car accessory in bulk (minimum 150 pieces). Free quote within 24 hours on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
