Average weight	0.1
Dimensions	89.2 x 44 x 31.4 MM
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Exten EU wall charger is a compact 65W GaN unit in a PC housing, designed to fast-charge laptops, tablets and phones via one USB-C (Power Delivery) and one USB-A (QC). Measuring 89.2 x 44 x 31.4 mm with an integrated European plug, its rounded rectangular form keeps the charger easy to plug in and store — suitable for office and travel use.

The front-facing ports provide straightforward access and the compact footprint limits clutter on a power strip. The robust power output supports rapid charging for devices that accept PD/QC standards, making it a practical choice for everyday charging needs.

Customisation is possible from 50 pieces (colours and sizes combined). Marking techniques offered: DTF printing, doming and tampography. Recommended for companies, clubs, associations and events looking for personalised chargers as corporate gifts or promotional items. Free quote within 24 h on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
