DESCRIPTION

The Prixton MGF100 massage gun is a lightweight, cordless device designed for warm-up, recovery and post-exercise relief. Fitted with six interchangeable heads and a 30 W motor reaching up to 3,300 rpm, it offers nine speed settings to suit varying intensities. Manufactured in Plastique ABS, it is comfortable to handle and simple to care for — wipe with a dry or slightly damp cloth. Its built-in battery and noise level make it a practical choice for fitness sessions or physiotherapy use.

We offer laser engraving to create a custom / personalised massage gun with logo, ideal for companies, sports clubs, associations, events or private individuals seeking a useful and distinctive item. Engraving is applied directly to the ABS housing.
