DESCRIPTION

The Prixton Dance Box speaker is a portable unit made from ABS and TPU plastics, designed to bring music to events and on the move. Bluetooth® 5.1 provides a stable connection to devices, while the 8–10 hour battery life and a 2–3 hour full charge support extended use. An integrated microphone and hands-free function simplify call handling, and the IPX7 rating makes it suitable for outdoor or damp conditions. Easy to maintain: wipe the plastic surfaces to keep the unit clean.

We offer laser engraving for a custom / personalised speaker with logo, perfect for marking logos and text with precision. Ideal for companies, sports clubs, associations, schools, youth movements and private customers — suitable as promotional gifts, event giveaways or branded merchandise. Free quote within 24 hours on weekdays; collection in Evere or delivery to Belgium, France and Luxembourg available.
