DESCRIPTION

The Prixton TWS163 earbuds are wireless earbuds designed for on-the-go use with a comfortable fit. Their beech wood housing and wheat straw details give a natural, lightweight look. They feature ENC technology to reduce external noise, Bluetooth® 5.0 connectivity up to 10 metres and an automatic power-on when removed from the case. Battery life is 6 hours and the charging base supports wireless chargers; a full charge takes 1 hour. For care, gently wipe the natural surfaces with a soft dry or slightly damp cloth to preserve the materials.

These custom / personalised earbuds with logo can be branded by tampography, laser engraving or digital printing to suit your visual. Ideal for businesses, sports clubs, associations, events and individuals, they allow a logo or design on the wooden shell or charging case. Our studio can prepare or vectorise your artwork and provide a free quote for the customisation.
