Reference	3149
Composition	ABS Recyclé
Material	ABS Recyclé
Average weight	0.12
Dimensions	13.5 x 5 x 3CM
Country of origin	China
Carton	40 pieces

DESCRIPTION

The Cranch compact torch is made from recycled ABS for practical outdoor use. It features a solar panel and a hand-crank dynamo for off-grid charging, with a replaceable 500 mAh Li-ion battery providing up to 150 minutes of continuous light. Measuring 13.5 x 5 x 3 cm, its compact format and built-in attachment loop make it easy to carry and secure. It is available in several colours, such as Black and Dark Green.

The front houses three LEDs for a focused beam; a side-mounted switch and a charging port are visible for simple operation and recharging. The matte recycled ABS finish offers a secure grip and everyday durability. Care is straightforward: wipe with a damp cloth and avoid immersion.

Branding can be applied by pad printing on a flat area of the casing, suitable for companies, sports clubs, associations and promotional events. Minimum order quantity: 20 pieces (colours and sizes combined). Free quotes and a graphic studio are available to prepare your logo.
