Dimensions	13 x 5.6 x 0.6CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

Magnetic phone stand made from an aluminium alloy, designed as a compact accessory to secure and position a smartphone. With dimensions of 13 x 5.6 x 0.6 cm, the Screentach offers a slim, sturdy profile and a discreet appearance. It includes a metal ring with a 3M adhesive strip for non-magnetic phones, making attachment straightforward. For upkeep, wipe with a soft cloth and avoid harsh chemicals.

The model features an articulated arm for adjustable viewing angles; the design shows a circular magnetic pad and a movable supporting arm that folds neatly when not in use. Its low profile and refined finish make it suitable for office desks, trade events and everyday use. Available in several colours such as black and silver.

Customisable by DTF printing, doming, laser engraving or pad printing, this personalised phone accessory is suitable for companies, sports clubs, associations, events and private customers. Minimum order quantity: 50 pieces (colours and sizes combined). Free quotes within 24 hours on weekdays; standard production and express options available.
