Carton	50 pieces

DESCRIPTION

Personalised speaker: the Chargebeat is a compact wireless speaker made from recycled ABS, combining a 5W mono audio output with a 15W wireless charging pad and a fold-out phone stand. It features a replaceable 1200 mAh rechargeable battery providing around 4–5 hours of playback, USB-C input and compact dimensions (112 x 95 x 29.1 mm). The model is offered in 1 colour (black).

The unit presents a mesh grille over the speaker area and a hinged support that holds a phone upright. The low-profile base provides stability on desks or bedside tables, while the recycled ABS casing has a discreet finish that’s easy to wipe clean. USB-C connectivity makes it simple to integrate into office or reception setups.

Brand the Chargebeat by digital printing, doming, pad printing or laser engraving for companies, sports clubs, associations, events or corporate gifts. Minimum order: 25 pieces (colours and sizes combined). We provide free quotes within 24 hours on weekdays and our design studio can vectorise or retouch your logo. Personalised speaker suitable for professional orders.
