DESCRIPTION

Double-walled travel mug in recycled stainless steel, model Atlanta, 900 ml (13 x 26 cm). Designed for on-the-go use at the office, events or while travelling, it features a powder-coated finish and an integrated handle for a secure grip. The lid includes a two-spout straw with a pressure-release opening option and an anti-leak construction. The item is offered in several colours such as black, white and grey.

The double-wall construction gives the mug a sturdy feel and a matte surface; the hinged lid with a foldable spout makes drinking convenient and locks the straw to reduce spills. Recycled stainless steel provides long-lasting wear; cleaning is straightforward and should follow the manufacturer's care guidance.

Brand this mug with laser engraving, screen printing on objects or pad printing. Suitable for companies, sports clubs, associations, events and private customers. Minimum order: 10 pieces (colours and sizes combined). This is a practical, sustainable personalised travel mug for your promotional range.
