Carton	24 pieces

DESCRIPTION

The Tram travel mug holds 455 ml and is made from double-walled stainless steel with a PP interior and a secure lid. Its tapered shape and metal finish give a sturdy, comfortable grip for commuting or on-site breaks. Dimensions Ø8 x 16.5 cm, capacity 455 ml — suitable for hot and cold drinks; simple care by rinsing the lid and hand-washing when needed to protect seals.

The mug features a soft grip band and a protective base ring to improve handling and reduce impact. The lid offers a drinking opening that limits spills, and the double-wall construction helps maintain drink temperature while preventing external condensation.

Personalise this travel mug with laser engraving, screen printing on objects and pad printing. A practical choice for companies, sports clubs, associations, events and private customers. Minimum order: 12 pieces (colours and sizes combined). Our studio can vectorise or retouch your logo for production.
