DESCRIPTION

The Elevate Hale beanie is a unisex rib-knit (1x1, 12 gauge) made from Polylana® fibre blended with acrylic. Polylana® provides a lower-impact alternative to 100% acrylic or wool, offering water and energy savings and reduced CO2 emissions based on life cycle analysis. The ribbed knit gives stretch and a secure fit for everyday comfort while maintaining a discreet, versatile look. It’s a practical choice for those who want style with a reduced environmental footprint.

We can create a custom / personalised beanie with logo using embroidery, DTF printing, flex, screen printing, silk-screen transfers (single and multi-colour), embroidered patches, pad printing and digital printing on objects. Perfect for companies, sports clubs, associations, events, schools and private customers.
