DESCRIPTION

The Contenant isotherme Sullivan 750ml is made from double-walled stainless steel to help maintain the temperature of your drinks. With a 750 ml capacity it is well suited for commuting, the office or outdoor activities. The pouring spout retracts when the small cup built into the lid is screwed onto the bottle, providing a tidy and practical experience. Stainless steel construction makes it easy to rinse and keep clean after use. This insulated bottle combines durability and everyday functionality for reliable, daily use.

We offer a custom / personalised Contenant isotherme Sullivan 750ml with logo using several techniques: screen printing on objects, digital printing, laser engraving and pad printing. Ideal for companies, sports clubs, associations, schools, youth movements and individuals looking for a useful, brandable item. Our design studio can prepare or vectorise your logo before marking and provide a tailored quote.
