Antibacterial stylus ballpen

Ref. 6153

Reference	6153
Composition	ABS
Material	ABS
Average weight	0.007
Dimensions	Ø1,1 x 14 CM
Country of origin	China
Carton	1000 pieces

DESCRIPTION

A push-button ballpen in ABS with an antibacterial coating (nano-silver additive) designed to reduce bacterial colonisation on the surface. Practical for everyday use, it combines blue ink with a stylus tip for operating touchscreens without direct finger contact. Its slim dimensions (Ø1.1 x 14 cm) make it comfortable to hold for extended writing.

The pen features a discreet metal clip and a chrome tip that delivers clear writing. The click mechanism allows one-handed operation and the smooth body minimises places where dirt can collect. It is ISO 22196 compliant and well suited to receptions, trade shows or shared work environments.

Customisable by pad printing, this personalised pen is ideal for companies, clubs, schools, associations and promotional events. Model Blanquito Clean available in white; minimum order 500 pieces (colours and sizes combined) — smaller quantities can be arranged with additional charges. Free quote within 24 hours on weekdays and our graphic studio can prepare or vectorise your logo for marking.
