| **Carton** | 300 pieces |

## DESCRIPTION

This oval floating cork keyring combines practical design with durability for water lovers. The cork body is a 100% natural, FSC-certified material that keeps keys afloat if dropped in water, while the braided cord and metal fittings provide a secure, nautical feel. At 9 x 4 x 1.5 cm the keyring is compact and easy to handle; the cork's porous surface may produce slight variations in print result between items.

The product photo shows a braided cord attached by a metal ferrule and a stainless steel ring — details that enhance longevity and everyday usability. The combination of buoyant cork and robust metal parts makes the keyring well suited to wet conditions and repeated use.

Customisation is available by laser engraving — a personalised keyring well suited to companies, sports clubs, associations, events and individuals. Minimum order: 150 pieces (colours and sizes combined). Our in-house design studio can vectorise or retouch your logo prior to engraving.

## COLOURS (2)

Black

Royal Blue
