Carton	30 pieces

DESCRIPTION

The Speakbox bamboo speaker is a compact, elongated wireless speaker (14 x 4.6 x 5.0 cm) designed to sit on a desk or travel easily in a bag. Its bamboo casing gives a natural, smooth finish while the speaker faces are gridded to project stereo sound. It runs on a built-in rechargeable battery with an advertised runtime of about 4 hours and a full recharge in around 3 hours, suitable for home, office, presentations and small events.

The bamboo construction makes the speaker lightweight and pleasant to handle; the rounded profile avoids sharp edges and aids portability. Its compact size allows easy placement on surfaces or transport in a bag. For care, use a soft dry or slightly damp cloth to clean the wood without damaging the finish.

This Speakbox is adaptable for branded gifts and promotional use: available marking techniques include laser engraving and pad printing. Recommended for companies, sports clubs, associations, schools and client gifts. Order your personalised speaker from a minimum of 15 pieces (minimum order).
