DESCRIPTION

The Helie portable ring light is a phone accessory designed for content creators, short-form video and selfies. Compact at Ø8.7 x 2.7 cm and made from PS, it houses 28 LEDs arranged in a circle to provide even facial illumination and three adjustable brightness levels. The USB-rechargeable 80 mAh battery makes it convenient for on-the-go use and easy to clip to most smartphones.

The photo shows a slim clip-style mount with an open central area for securing the phone; its flat profile makes it simple to store. The diffuser ring delivers uniform light with minimal shadowing, while the brightness control allows fine-tuning of exposure for both photos and videos.

Customisable from 50 pieces, this personalised phone accessory is suitable for companies, clubs, associations and promotional events. Personalisation options include digital printing, doming and pad printing, with a free quote within 24 hours on weekdays and collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
