Reference	6341
Composition	Soda-lime glass
Material	Soda-lime glass
Average weight	0.303
Dimensions	8 x 13,4CM
Country of origin	China
Carton	40 pieces

DESCRIPTION

Outdoor solar jar made from soda-lime glass, designed to add ambient light to terraces and gardens. The compact Pot Lamp (8 x 13.4 cm) contains a 20-LED string powered by an internal Ni-MH battery (300 mAh) which recharges from daylight via the solar panel in the lid. Rated IP44, it is suitable for outdoor use and the metal handle allows it to be stood on a table or hung. The transparent glass diffuses a gentle decorative glow.

The finish is smooth glass with rounded contours and a screw top that houses the solar element. Maintenance is straightforward: keep the glass clean and ensure the solar panel is unobstructed to maintain charging efficiency.

As a personalised picnic and camping item, it can be customised using digital printing, doming, laser engraving and pad printing. Suitable for companies, sports clubs, associations, events and private customers seeking a decorative, practical promotional item. Minimum order: 20 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; collection in Evere or delivery in Belgium, France and Luxembourg.
