DESCRIPTION

The Nanda double-wall stainless steel bottle (450 ml) is designed to keep hot and cold drinks at the right temperature on the move. It features a bamboo outer sleeve and a PP screw cap with an integrated carry handle for easy transport. The natural bamboo finish gives the bottle a tactile, sustainable look; slight variations in grain and colour between items are normal. The bottle is leak-resistant and should be cleaned according to the manufacturer's guidance.

The pictured cap has a built-in loop and a practical drinking spout; the bottle's slim, straight profile (8 x 24 cm) makes it stable and easy to stow in a bag. The double-wall construction provides effective insulation without external condensation.

Customisation options include laser engraving, DTF printing, screen printing on objects and pad printing. A personalised bottle well suited to companies, sports clubs, associations, events and private customers. Minimum order: 15 pieces (colours and sizes combined). Our design studio can retouch or vectorise your logo before production.
