Composition	Borosilicate glass
Material	Borosilicate glass
Average weight	0.195
Dimensions	7,5 x 7 x 26,4 CM
Country of origin	China
Carton	12 pieces

DESCRIPTION

The Barretin oil and vinegar bottle in borosilicate glass is a slim kitchen utensil designed to serve both olive oil and vinegar from a single elegant vessel. It features a double-chamber construction: an outer reservoir of approximately 300 ml and an inner chamber of about 80 ml. The borosilicate glass offers greater resistance than ordinary glass and a clear, transparent finish that suits both domestic and professional tabletops. Dimensions: 7.5 x 7 x 26.4 cm.

The bottle presents a tall main neck and a smaller side spout, each sealed with cork stoppers for convenient serving and storage. A broad base improves stability and the smooth glass surface is straightforward to clean by hand; avoid thermal shocks to maintain the material’s integrity.

Customisable for businesses, restaurants, clubs, associations and individuals, this model accepts digital printing, doming and pad printing for logo application. Personalised kitchen utensil. Minimum order: 6 pieces (colours and sizes combined). A free quotation is available on request and our graphic studio can retouch or vectorise your artwork.
