Country of origin	China
Carton	1000 pieces

DESCRIPTION

The Rio Rpet ballpoint pen is made from RPET for everyday use at the office or at home. It features a gently curved barrel, a sturdy clip and a push-button mechanism; the refill uses blue ink. The RPET construction provides a more sustainable option to virgin plastic while maintaining comfortable writing. The model is available in several colours (for example White Transparent, Blue Transparent, Green Transparent) and its compact dimensions make it convenient to distribute at events.

Practical details include a secure clip and chrome-style trims at the tip and top that improve pocket-wear and handling. Care is straightforward: normal use and storage, avoiding extreme temperatures to preserve ink performance.

This personalised pen can be printed by tampography or digital printing, both suited to the pen's surface. Recommended for companies, associations, sports clubs, schools and promotional campaigns. Minimum order: 500 pieces (colours and sizes combined); free quote within 24 hours on weekdays.
