Reference	6411
Composition	EVA
Material	EVA
Average weight	0.016
Dimensions	23,5 x 20 x 0,4 CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

An ergonomic desk accessory in EVA designed to relieve wrist strain during extended computer use. The mouse pad features a rounded shape with an integrated raised wrist support promoting a more natural hand position; compact dimensions (23.5 x 20 x 0.4 cm) make it suitable for a standard workstation. The EVA material provides a flexible, durable surface that sits neatly on a desk and is easy to maintain.

The pad offers a slightly textured surface to stabilise mouse movement and a contoured wrist rest at the lower edge for continuous comfort. Its slim profile keeps the pad close to the keyboard while a discreet edge finish helps it lie flat. Cleaning is straightforward with a damp cloth to preserve the material.

Customisable by screen printing, this personalised mouse pad is ideal for companies, sports clubs, associations, events and individuals wishing to feature their logo. Minimum order: 50 pieces (colours and sizes combined) — lower quantities may be possible with additional fees. Free quote within 24 hours on weekdays; standard production 10 working days. Collection at our Evere workshop or delivery in Belgium, France and Luxembourg. Our graphic studio can retouch or vectorise your logo.
