Country of origin	China
Carton	20 pieces

DESCRIPTION

The Superpad mousepad is a desk accessory made from RPET, designed for everyday workstation use. Its rectangular shape with rounded corners provides a stable tracking surface for a mouse while protecting the desk from wear. The RPET surface has a subtle textile texture and is easy to care for, suitable for offices, clubs and home workspaces.

The pad features an integrated 15W wireless charger (DC 9V/1.6A) and dedicated slots to hold a smartphone in place. Measuring 31.5 x 27 x 0.5 cm, it’s compact yet practical for organising small devices and cables. The photo highlights a clean finish and secure holding areas that help keep a desktop tidy.

Customisation is available by screen printing, making this a personalised desk accessory for businesses, clubs, associations and individuals. Minimum order quantity: 10 pieces (colours and sizes combined). Our graphic studio can vectorise or retouch your logo prior to production.
