Reference	6472
Composition	ABS
Material	ABS
Average weight	0.11
Dimensions	9,6 x 6 x 7,2 CM
Country of origin	China
Carton	20 pieces

DESCRIPTION

The Adia magnetic car wireless charger is a compact, ABS-bodied solution that mounts to most car air vents and charges compatible phones (iPhone® 12 and newer, recent Androids). Supplied with an additional metal ring for non-magnetic Qi-capable devices, it connects to the vehicle power supply and shows charging status via a blue LED. Dimensions are 9.6 x 6 x 7.2 cm, making it easy to fit into a dashboard environment.

The product image shows the vent clip and a flat magnetic contact area; the integrated cable and secure clamp simplify installation and keep the phone in place during daily drives. Electrical output is DC 9V/1.1A, suitable for routine in-car charging needs.

Order this personalised wireless charger with your logo using digital printing or pad printing (tampography) on ABS — ideal for companies, sports clubs, associations, events or individual gifts. Minimum order: 10 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; collection in our Evere workshop or delivery in Belgium, France and Luxembourg.
