DESCRIPTION

The Inkless Plus bamboo pencil is designed for writing and sketching. Slim cylindrical body (Ø0.8 x 17 cm) in bamboo with an integrated graphite tip and an eraser under a paper cap with a metal ferrule. Bamboo's natural variation may affect appearance and decoration results. The pencil is available in several wood tones and offers a more sustainable alternative to conventional pens. Care is simple: keep dry and avoid strong impacts to protect the tip and eraser.

Its straight, elongated shape provides a comfortable grip for notetaking and drawing; visible details include the metal ferrule beneath the eraser and the ready-to-use graphite point. Well suited for offices, trade shows, welcome packs and events where a natural look is desired.
