DESCRIPTION

Flowers gardening kit designed for easy flower cultivation: a compact box (16.5 x 9.5 x 8.5 cm) containing seeds of lavender, forget-me-not, sunflower, white daisy and poppy, plus a soil tablet. Made in the EU from paper, this kit is suited to starting a small flower patch or balcony pots and is ideal for enthusiastic gardeners, schools and community groups.

The paper pots and simple boxed presentation make the kit practical to use: regular watering and appropriate light for each species. Its compact size is convenient for distribution at events or as a promotional gift, and the printed box includes basic guidance on the varieties included to help end users.

Personalise the kit with digital printing, doming or pad printing to carry your logo or message. This is not a textile product; minimum order: 14 pieces (colours and sizes combined). Suitable for businesses, clubs, associations and events — free quote in 24 h on weekdays, with collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
