Carton	50 pieces

DESCRIPTION

The Mespro tape measure is a compact, durable tool designed for professionals and DIY users. Its 5-metre stainless steel blade and shock-resistant housing provide reliable performance, while the AutoStop function eases extended measurements. At 7.4 x 7.2 x 3.6 cm, the tape's metal belt clip and wrist strap make it a practical companion on site, in workshops or during field measurements.

The case features textured grips for secure handling, an easily accessible locking mechanism and a reinforced blade end for hooking on edges. Constructed in stainless steel, the measure is built for repeated use and clear reading of graduations. The item is supplied in 1 colour (for example black) and stores neatly in a toolbox or pocket thanks to the clip.

Personalised tape measure options include tampography, digital printing and doming to add your logo. Minimum order: 25 pieces (colours and sizes combined). Suitable for companies, sports clubs, associations, events and promotional gifting. Our design studio can vectorise or retouch your logo for production.
